

JVA Leaded Voltmeter

PTE0311

Overview:

The JVA Leaded Voltmeter is an easy to use, rugged fence voltmeter. This device utilises an earth lead for improved accuracy, and the simplified design makes reading the fence voltage a quick and easy task. This device shares a design history with the JVA Fault Finder, both of which are designed and made in Australia by the original inventor and manufacturer, Pakton Technologies.

Features:

- Waterproof design
- Integrated (removable) belt clip
- Simple to use - Automatic operation
- Longer lasting battery
- Ergonomic case design
- Fingers are further away from High Voltage
- Digital readout which shows fence voltage
- Pocket size – Easy to carry
- Inbuilt battery status light

Specifications:

Voltage	Display: Range: Accuracy:	2 Digit 10mm LCD 0 – 12kV ¹ +/- 10%
Size	Height: Width: Depth:	155 mm 60 mm 24 mm
Weight	Product: Packed:	0.17kg 0.21kg

[1] Previous models read to 9.9kV

Package Contents:

- JVA Voltmeter (PTE0311), battery included.
- 75cm ground lead
- Instruction Manual

Warranty:

3 Year Manufacturer Warranty
