

JVA 15A Solar Regulator

PTE3015

Overview:

The JVA 15A Solar Regulator is designed and tested for electric fence applications. It is protected against electric fence surges on all inputs. It will operate with four common types of rechargeable batteries by switch selection including Lithium Iron Phosphate (LFP). It can be used for solar panels up to 200W. The JVA Solar Regulators electronic components are sealed against moisture and ants.

Benefits:

- Protected against electrical surges on all inputs
- Fully Sealed
- Operate with 4 common types of rechargeable batteries by switch selection
- Can be used for solar panels up to 200W
- Lithium battery compatible

Specifications:

Connection	Battery and solar panel	
Size	Height: Width: Depth:	61 mm 104 mm 22 mm
Weight	Product: Packed:	50 g 80 g

Note:

The PTE3015 should not be installed where it can be affected by direct sunlight or rainfall.

It is made in China.

Operating Temperature: -25 ~ 50°C

Storage Temperature: -40 ~ 85°C

Warranty:

3 Year Manufacturer Warranty (excluding lightning damage or reverse solar and battery connection)
